7. Engineering Conditions:

B-107 4340

1. Subject to the condition that before operating authority (test, temporary or program) is issued, sufficient field intensity measurements, as hereinafter described, shall be made in the presence of WRCP representatives before and after construction of WHYY-TV as specified herein, to assure that the directional pattern of WRCP remains the same as it was before the WHYY-TV construction. The required measurements shall be ten (10) in number for each radial, shall be on the same radials and at consecutive points used in connection with the original proof of performance of station WRCP (in this case the 1969 re-proof). Analysis of the data shall be in accordance with section 73.126 of the rules. All measurements taken shall be co-certified by both parties to this condition. Failure on the part of either party to cooperate in the taking of joint measurements may result in the withdrawal of protective conditions. Approval of measurements must be made before operating authority is issued.

2. The application for license shall include an affidavit by a qualified and licensed surveyor that the proper azimuthal orientation to achieve minimum radiation at 345 degrees true (toward WBS-TV, Binghamton, New York) was established at the time of the antenna installation.

P.C.C. - WASHINGTON, D. C.

8-1-78 Renewal:

PETITION TO DENY (CONDITION) THE RENEWAL OF THE CURRENT LICENSE OF WHYY, INC. (CHANNEL 12) filed 6-8-78 by Frederick Feldman (only one copy rec'd., by certified mail, 6-8-78 in Broadcast License; orig. sent 6-9-78 to Renewal; copy to RR).

REQUEST FOR EXTENSION OF TIME filed 6-23-78 by Louis Schwartz on behalf of WHYY, Inc.

OPPOSITION TO "PETITION TO DENY (CONDITION) THE RENEWAL OF THE CURRENT LICENSE OF WHYY, INC., (CHANNEL 12)" filed 7-12-78 by Louis Schwartz on behalf of WHYY.

MEMORANDUM OPINION AND ORDER adopted 11-2-78, released 12-1-78 FCC 78-782 4301: In view of the foregoing analysis, it is clear that petitioner's allegations raise no substantial and material question of fact as to whether a grant of WHYY-TV's license renewal application would be prima facie inconsistent with the public interest. Accordingly, IT IS ORDERED, That the petition to condition the license renewal application of WHYY-TV, filed June 8, 1978 by the Philadelphia County Council, Jewish War Veterans of the United States (and joined in by Brith Sholom), IS DENIED.

(Due to unresolved questions remaining in connection with the Commission's inquiry into the adequacy of VHF television coverage in the state of New Jersey, WHYY-TV's license renewal application cannot be granted at this time).

COMMENTS OF WHYY, INC. ON THE 'COMPLAINT OF THE BROADCAST AND COMMUNICATIONS COMMITTEE, CITY COUNCIL, WILMINGTON, DELAWARE' 2-8-80 by Lois Schwartz for WHYY, Inc.

PETITION TO DENY (CONDITION) THE RENEWAL OF THE CURRENT LICENSE OF WHY, INC.(CHANNEL 12)

6-8-1978 by RONALD ZIEGLER ,ESQUIRE FOR WHY TV

About the History Cards ...

History Cards were first used by the Department of Commerce to keep track of applications filed by, and changes to, the earliest AM broadcast radio stations in the early 1920s. The records were subsequently transferred to the Federal Radio Commission in 1927, and after that to the Federal Communications Commission when that agency was created in 1934. These cards gradually grew into a large card file.

TV History Cards were initiated in the early 1940s, with the authorization of the earliest TV stations. History Cards remained in use until the creation of the first computerized database in 1980 to track broadcast applications, the Broadcast Application Processing System (BAPS). However, the Commission did not transfer the data from the History Cards to the new system. Instead, it retained the History Cards in their original form for reference.

In 1999, the Commission moved to a new location (445 12th Street SW), and also at that time created the successor database to BAPS, the Consolidated DataBase System (CDBS). Prior to that move, the History Cards were transferred to microfiche by a contractor (only a few sets of microfiche exist), and the original paper cards were destroyed. The History Cards were stored on the microfiche as negative images, like those you see above.

History Cards contain very brief entries and notes about station facilities, applications, and ownership. They are not, and never were intended to be, a comprehensive record of a station's operations. Nevertheless, they can be useful to help determine, for example, when a station first went on the air and its call letters at that time. History Card comments were generally typed onto the cards, and thus some records will show more faintly or with more smudging than others, depending on the quality of typewriter and ribbon then used. Occasional handwritten comments, corrections, and strikeouts may also be found. Cards may be incomplete, missing, or occasionally out of sequence.

The History Cards are presented here as they were copied to microfiche, to preserve this record for public use, and with the hope that they will be of value to future researchers of television station history.
